

What's the best way from Tirana to Ksamil 2025?

I am planning my first trip from Tirana to Ksamil and am looking for a stress-free way to get there. The last time I took a minibus to Vlora, it was chaotic. The drivers were shouting, there was barely enough room for my luggage, and there were lots of stops. Has anyone used a pre-booked transfer service to Ksamil? Are these services reliable?

After an incident in which I tried to save money by taking the bus and almost didn't make it to my destination, I decided that public transportation in Albania is not for me. Public transportation in Albania is very unpredictable. I searched online and found a great service called GetTransfer, where you can book transfers. When I traveled to Tirana to Ksamil, I booked a car in advance, which really saved me. The price and type of car are shown immediately, and you can add amenities like a child seat or Wi-Fi. The driver arrived on time, the road wasn't busy, and he recommended places to stop, such as Apollonia. If you want predictability, this is a very convenient option.
