

## Where can I buy a bed in Cyprus?

Vložil solya - 04/07/2025 20:42

---

Who among you has bought a bed online in Cyprus? I am interested in a modern bed with a soft headboard and lighting, as described in this post. How convenient is it to buy through a showroom? Is it really possible to customize the model to suit your interior without any problems?

Hello! I also wanted a modern bed with a soft headboard and LED lighting. I decided to buy a bed in Cyprus online and they recommended a model with a supportive metal frame on legs and the option to add lighting—perfect for the living room. In the showroom, you can see the options “in real life,” and consultants will help you adapt them to your interior.

Thank you very much for your reply and for sharing your experience of choosing a bed! It's useful to know about the options with lighting and a soft headboard — that's exactly what I'm looking for. It's inspiring to be able to see everything in person before buying.
