

## What's the best site for DJs to buy electronic music

Vložil Garcia Quyen - 24/10/2024 00:47

---

Hi! I'm a DJ in need of a reliable platform where I can purchase high-quality electronic tracks. I want to download them in formats like MP3, WAV, AIFF, or FLAC. Any suggestions?

Hey! A lot of DJs I know recommended <https://volumo.com>, and after trying it myself, I can see why. It's an electronic music store that's tailored specifically for DJs, with an extensive collection of tracks in every genre. The tracks are available in MP3, WAV, AIFF, and FLAC formats, so you're covered no matter what quality you're aiming for. The variety and quality of music are superb, and it's really helped me keep my sets fresh and engaging. I think you'll find it incredibly useful!
