

How can I fax enrollment forms?

Vložil Garcia Quyen - 28/10/2026 09:30

Don't worry, the actual process is less intimidating than the word "fax" makes it sound. I suggest starting with Unicorn Fax App, which supports sending documents from smartphones. You can check <https://comfax.com/> to see how the service works. Just make sure every page of your enrollment form is included. Missing one page can delay the whole application.
